AC Master 12/1500 (230 V)

Product code: 28011500

Reliable AC power for recreational and semi-professional use

These affordable sine wave inverters convert 12 or 24 V battery voltage into reliable 230 V 50/60 Hz or 120 V 50/60 Hz grid power, making them ideal for recreational and semi-professional applications. The AC Master series is easy to install and delivers full output, even under the most demanding conditions. The pure sine wave technology provides an outstanding power quality, ensuring the correct functioning of sensitive equipment. The usage of high frequency switching technology eliminates any annoying humming and buzzing sounds.

Representing complete value for money, these ruggedly built inverters provide essential home comforts when you're far from the nearest grid connection.

Features

- · Pure sine wave technology protects sensitive equipment.
- · Delivers full output at high peak power under the most demanding conditions.
- · Automatic power saving system for extended runtime.
- · Compact and lightweight design, saving valuable installation time.
- · Reliable and safe operation; protected against over-temperature, overload, short circuit, high or low battery voltage.
 - · Variable speed fan for quiet operation at low power.
- \cdot Optional remote control for instant switch off of the inverter and all connected equipment (not available for the 300 and 500 W models).
 - · Convenient plug connection for all models, 2500/3500 Watt models also hard wired.

In addition, the 2500/3500 Watt models offer:

- · Combine 2 up to 15 units to obtain high power or 3-phase systems.
- · Integrated transfer system, switches automatically between AC power sources.

Applications

Both recreational and semi-professional use, where grid power varies or is unavailable. Applications include lighting, appliances, electric cooking and power tools. For (mobile) applications in your home, office or service vehicle, or during your holidays.

Specifications

General specifications

Output voltage 200/220/230/240 V - 50/60 Hz (selectable)

Output waveformtrue sineNominal battery voltage12 VRecommended battery capacity>= 160 AhContinuous power at 25 °C / 77 °F, cos phi 11500 WContinuous power at 40 °C / 104 °F, cos phi 11500 W

 Peak load (1 min.)
 < 1730 W</td>

 Peak load (1 s)
 < 2650 W</td>

AC connection EU (Schuko), with UK plug (code 28211500) or with

NZ/AU plug (code 28411500)

Galvanic isolation yes
Efficiency 93 %

Display/read-out LED indication: battery voltage, load level, status

potential free alarm contact

 Dimensions, hxwxd
 248 x 421 x 83 mm

 Weight
 4.2 kg

4.2 kg 9.3 lb

Compliance CE, E-mark, RCM

Technical specifications

Alarms

Technology high frequency, input & output fully isolated

Low battery voltage, switches off at 10.5 V
Low battery voltage, switches on at 12.5 V
High battery voltage, switches off at 16.5 V
High battery voltage, switches on at 14.5 V
Input current (nominal load) 150 A
No-load power consumption (ON mode) < 1.8 A
No-load power consumption (energy saving mode) < 0.1 A

Minimal DC fuse (slow blow)

Minimal cable size

50 mm²

Minimal cable size 50 mm Harmonic distortion typical < 3 %

Cos phi all power factors allowed Temperature range (ambient temp.) all 20 °C to 60 °C, derating power > 40 °C

-4 to 140 °F

Cooling temperature and load controlled fan Protection degree IP21, horizontal wall mounting

Protections over-temperature, overload, short circuit, high/low voltage

MasterBus compatible yes, using a MasterBus AC Master Interface
